Do you have the official comments from the OOC on the WET parts? Want to read them before the meeting.

Wednesday won't work for me. I have some meetings already set with BSEE and BOEM.

If you can't find a room we can go with the original plan to have it virtually.

Nichole -

I wanted to give you an update on who will be attending the meeting on September 29. From OOC:

- Myself
- Morris Jones - Shell
- Ashley Haynes, Mandie Bosch - Chevron
- Sofia Lamon - Oxy
- Jim Rocco - IADC

Can you send me a list of attendees from EPA? Did David confirm?

Also, I wanted to inquire if we could hold the meeting face-to-face in your offices in Dallas? Let me know if you think that is possible.

Thanks.

Will probably only include Brent and David. Looks like Brent is busy during that time but the 29th looks pretty open.

Nichole -

How about September 27 from 1:00-3:00?

Who do you think will be available from EPA? You, Brent, Mitty & Sharon? Others? From OOC, I plan to limit this to a small number of operators (maybe 5-6).

Let me know if that date/time works for you. Thanks.

Nichole -

First, nice job at the public meeting yesterday. It was informative and helpful.

Second, would EPA be open to meeting with OOC to discuss our comments shortly after the public comment period closes - potentially the week of Sept. 26? We are thinking that it would be helpful if we had a chance to explain in more detail some of our comments and answer any questions you and others may have,

Let me know if you think that is possible and we can work out the details.

Thanks. Have a great Labor Day weekend.
